Local Businesses Show Their Support of the Lacombe Performing Arts Centre with Title Sponsorship

(Lacombe, Alberta) –

The Lacombe Performing Arts Centre Foundation is thrilled to partner with two local businesses. President of the Foundation, Grant Harder, is thrilled to announce SHUNDA Consulting and Construction as title sponsor of the Theatre, and Nowco Home Hardware as title sponsor of the Fireside Room. “It is with tremendous generosity of sponsors like SHUNDA Consulting and Nowco Home Hardware that our Centre will continue to grow and thrive. Thanks to these great companies for supporting the arts.”

Like many companies and organizations this year, Lacombe Performing Arts Centre had to close its doors for a few months and were not able to provide some of the key programming to the community this summer, like Music in the Park, which was missed by many. And as they continue to grow and provide more programming in house, their vision is still committed to continuing their presence in the community as well, with new artistic and interactive opportunities for the public, making arts and culture a fixture in everyday life.

“We couldn’t be prouder to support such a fantastic organization. Lacombe Performing Arts Centre plays such a huge role in our community culture,” says Tyler Nowochin, owner of Nowco Home Hardware. “Striving to maintain and grow the arts culture is one of those things that makes Lacombe such a unique and wonderful place to live.”

“We couldn’t be more thankful for the support of businesses in the arts and culture sector,” says Harder. “Collaboration allows us to keep our ever-growing presence in the community strong.”
